Elbow Park/Glenlake Merge with some Trails West Communities Through Proposed Hockey Calgary Boundary Changes

Hockey Calgary will be outlining their proposed realignment of the Hockey Calgary boundaries, today Friday April 3. This proposal is subject to approval by the members of Hockey Calgary as well as the Associations. While it is yet to be approved by Hockey Calgary and the Associations, both Glenlake and Elbow Park are in favour of the boundary realignment that would merge these two hockey communities with some additional Trails West communities. The plan is to have both Hockey Calgary approval and Associations' approval in the month of April 2009. While the proposal merges together communities from three different hockey associations to be effective for the 2009-2010 hockey season, members from the respective Boards are diligently working towards detailing agreements that define the specifics of the arrangements between the three associations. This is necessary for the benefits of the players, the parents and the associations to ensure a clear transition for the upcoming season.

We look forward to a new hockey season in a new merged Association that will bring with it benefits to all the players in all divisions. There will be some challenges that will be worked through. Please be patient as we manage through these changes. We are committed to the changes and we look forward to the new merged Association.

Thank you to Mike Sondermann who was vice chair on the Boundary Review Committee, Ryan Fox, Shane Marchand, Rod McCann, and Lance Yanke. These people went above their normal hockey responsibilities and took additional time away from their families for the benefits of all the Glenlake and Elbow Park players and parents.

If you have any questions or concerns, please contact a member of your respective Association.

Mark Josefchak

President Glenlake

Lou Cusano

President Elbow Park
